

Shini USA Front-Feed, Staggered-Cut Granulators are heavy-duty plastic grinders designed to produce consistent, high quality regrind material with minimal dust and fines.

Available in 230/460 volt each SG-23 Series Shini Granulator features a versatile design which allows for robot, conveyor or hand-fed operations. Built with the operator in mind, Shini granulators allow easy accessibility for cleaning and maintenance. These staggered blade granulators are user friendly, with sound-proof enclosures and high quality safety mechanisms ensuring excellent performance and safety. The Shini SG-23 Series Granulators are ideal for grinding sprues, runners and rejected parts.

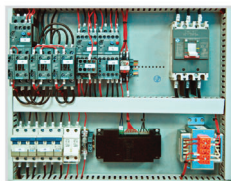

**Staggered Cutting Blade Design**

## Features

- Full sound proofed enclosure
- Tilt back adjustable hopper with 3 angle positions
- Reversible screen
- Integral Cyclone/Blower package standard
- Solid/Staggered Cut Rotor
- Energy efficient operation
- Emergency stop button
- Tool free access to drop down screen cradle and rotor
- High amp alarm/meter
- Hardened cutting chamber
- Hardened D2 cutting knives
- Safety interlocks
- Motor overload relays
- Outboard sealed bearings
