

BETTER PERFORMANCE

Increase performance and efficiency of gas cylinders

SAVE MONEY

Save money by optimizing gas and material usage

FEWER REFILLS

Eliminate unnecessary cylinder refills in cold weather

FULL-COVERAGE

Insulated full-wrap design

SAFE

UL/CSA safety certified

VISCOSITY

Improve viscosity and flow on any tank

GAS CYLINDER HEATERS

Powerblanket has the best gas cylinder heaters on the market. Our heating blankets will overcome the effects of cold weather and maintain pressure and efficiency on any gas cylinder. If you have a home, cabin, or business fueled by propane, you know how frustrating and expensive it can be when your propane pressure decreases in cold weather.

A large US railroad company uses these heaters to keep snow off the tracks. By applying Powerblanket Gas Cylinder Warmers to their 1000 lb propane tanks, they power their generators along the railway system. Before using the Powerblanket heaters, the cold temperatures kept the propane from vaporizing, which made it more difficult to remove snow because the generators did not work.

ENDURAPLAS MANAGER

Powerblanket's propane heaters worked so well that we actually only ended up having to wrap one tank per pigtail. The blankets maintained a high enough pressure that the propane transferred to the next tank without any problem.
