

## Editorial Calendar

Beginning in April, TUTConnect will expand to include new stories on our cartridge, band, and other conductive heat solutions. Stay up-to-date each month with the latest product news, trends, training and insights from TUTCO Heating Solutions Group.

APRIL 2023

ENERGY TRANSITION

### Electrification cures safety woes of webbing manufacturer

Our engineers developed a modified system that was customized to the specific needs of the application and electrified their process.

TUTCO FARNAM

#### Closed-Loop Controllers

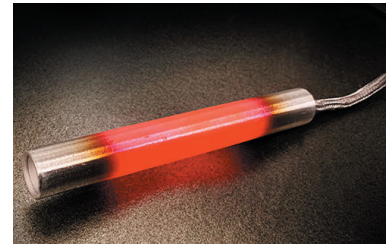

Regardless of changes in airflow, temperature is constantly measured to maintain processes and protect the heater.

TUTCO SUREHEAT- FEATURE VIDEO

#### Over Temp Protection (OTP)

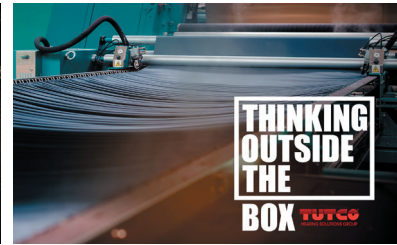

This month's Feature Video highlights SureHeat's Over Temperature Protection (OTP) which protects heaters from downtime.

TUTCO CONDUCTIVE

#### Preventing Heater Failure

There are three key reasons for heater failure. Learn how to avoid these common issues and extend the life of your heater.

TUTCO

#### Thinking Outside The Box

A textile manufacturer needed a heater that delivered greater reliability. We produced a solutions that was the perfect fit.

MAY 2023

ENERGY TRANSITION

### Electrification can handle the load on detergent application

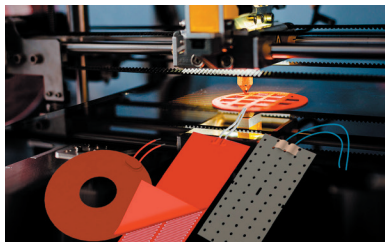

TUTCO SureHeat Jet heaters provide benefits that they could not achieve with gas and made for a far safer process.

TUTCO SURHEAT

#### Temperature Controllers

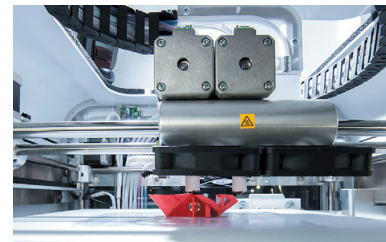

Electric air heaters are merely components of a well-balanced and long-lasting system. SureHeat temperature controllers minimize overshoot.

TUTCO FARNAM- FEATURE VIDEO

#### 3D Printing Solutions

In this month's video, AJ Nidek, TUTCO's National Sales Manager looks at the wide range of TUTCO heaters used in 3D printing applications

TUTCO CONDUCTIVE

#### 3D Printing for Plastic

TUTCO heaters are used in 3D printing applications for a variety of reasons. used to hold plastic print temperatures anywhere from 180°C to 260°C.

TUTCO

#### Thinking Outside The Box

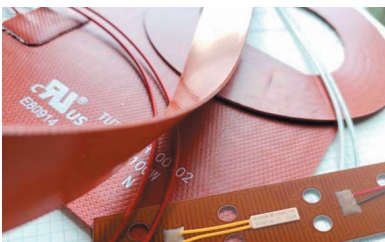

One mass transit company, that was renovating their older passenger cars, came to TUTCO needing a small lightweight heater for this application.

JUNE 2023

ENERGY TRANSITION

### Electricity delivers value for pizza ovens.

TUTCO Farnam has created a variety of solutions for pizza ovens from custom to Flow Torch™ heaters.

TUTCO FARNAM

#### Silicone Rubber Heaters

Silicone Rubber Heaters are durable industrial products with amazing properties. Resistant to many chemicals they are quick and precise.

TUTCO SUREHEAT- FEATURE VIDEO

#### Hot Air Tools

This month's Feature Video highlights SureHeat's Hot Air Tools. The compact size makes them perfect for single phase OEM applications.

TUTCO CONDUCTIVE

#### Thermal Expansion

What takes place when your heater heats up and thermal expansion takes place. Find out in this new installment of "Ask Ian."

TUTCO

#### Thinking Outside The Box

A trucking application needed a new solution for heat in a custom HVAC system used in an agriculture transport trailer.
